Description

This cold-water pressure washer with alternating current drive unit is the ideal entry-level model for mobile use. The upright HD 5/11 C boasts impressive mobility and compactness. The unit's generous stowage facilities ensure that accessories are always ready to hand and put away safely. It boasts familiar Kärcher features such as a full shock-resistant plastic covering that protects the high-pressure pump from damage and soiling. Other very good features are an electric cable retractor (with plug lock) and a nozzle compartment arranged practically on the back of the unit. The cleaner comes with a three-way nozzle that enables the water jet to be adjusted quickly and easily. You can choose between a high-pressure pencil jet, a high-pressure fan jet (25°) and a low-pressure fan jet. The low-pressure fan jet (40°) is used for dispensing cleaning agent. The cleaning agent metering valve enables cleaning agent to be mixed continuously with the high-pressure jet. The three-piston axial pump with stainless steel pistons and a brass cylinder head guarantees a long service life and low susceptibility to faults. The pressure switch control switches the motor off automatically as soon as the handgun trigger is released, to permit energy-efficient working.

Application

Suitable for use in many fields: crafts, trades, cleaning companies, local authorities.

Features & Benefits
