Two steam tubes	■
Floor tool	1x with slats, 1x with bristles
Hand tool	■
Round brush, black	■
Upholstery tool with brush	■
Power nozzle	■
Detail nozzle	■

■ included in delivery.

2-tank system

- The fresh water tank can be continually refilled, since the boiler and tank are separate.
- Since only part of the overall volume is heated at any one time, it takes very little time for a consistent steam pattern to form.
- With a total volume of over 4 litres, the SG 4/4 can be used for long periods without refilling.

VapoHydro

- Thanks to VapoHydro, the steam level can be infinitely adjusted to the cleaning task.
- In addition to the steam pressure, the saturation can be infinitely adjusted from full steam to hot water.
- With the hot water jet, even stubborn dirt can be effectively dissolved initially.

Accessory storage compartment

- The integrated storage compartment enables the storage of a variety of accessories.
- Small detailed accessories are always safely stored and do not get lost.
- Even the suction tubes can be stored on the rear of the machine.

EQUIPMENT FOR SG 4/4

1.092-282.0

		Order no.	Description
